

## ProPertinax - your best choice for the production of pertinax counters

Lasercomb developed the new ProPertinax milling machine especially for the high demands of the Diemaking Industry and for Carton Manufacturers to allow the production of high quality counters. The user has the choice between the production of a full layout of counters or of single pieces for replacement.

ProPertinax sets new Standards and is absolutely the right choice for your Company at an attractive price.

impact

Version 08.06.2009
