Online Packaging Solution for Printing and Packaging Companies

Imagine and create successful products

a product of EngView Systems

# Online solution for custom packaging

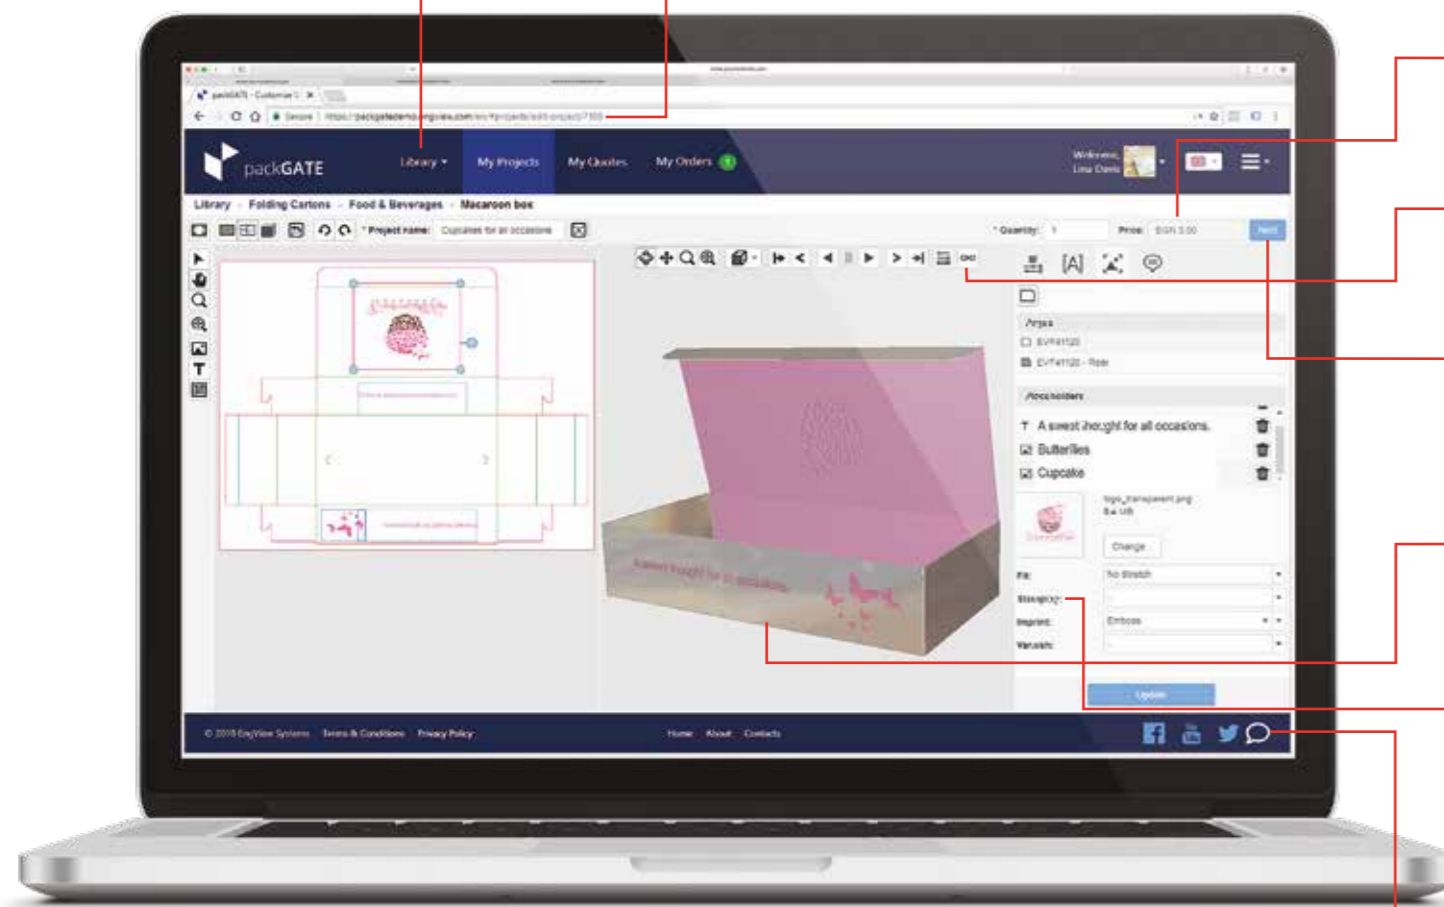

**packGATE** is a web-to-pack platform for designing and selling packaging online. It provides printing and packaging companies with their own branded storefronts, where users can create and order custom boxes and displays.

## **packGATE integrates with web-to-print and e-commerce solutions**

Packaging producers that are already using an e-commerce or a web-to-print solution can also integrate the **packGATE** resize-and-design editor to boost sales, sales and utilize digital capacities.

## **The platform generates die cut designs and print-ready files**

**packGATE** automatically generates ready-to-use printing and die cutting files that feed the digital production machines, effectively reducing time-to-market and raising productivity.

**01 Customizable interface**

Packaging producers can choose the domain name of their webshop and customize the interface design according to their branding and style.

**02 Custom library of parametric designs**

packGATE offers a variety of resizable standards for packaging and POP displays that can be uploaded to the producers' storefronts. Packaging companies can also create and upload their own designs - parametric and fixed-size.

**03 Price models & request quote**

Producers can set their own price model or receive quote inquiries.

**04 3D sharing**

packGATE generates a browser link with an interactive 3D preview of the created design.

**05 Quick ordering process**

Transparency is ensured with automatic email notifications and keeping a history of orders, production files and projects.

**06 Resize & design editor**

packGATE offers tools for real-time resizing of boxes, placement of graphics and finishing effects as well as instant visualization of the edits in 3D. No prior graphical or structural design experience is needed to start creating custom packaging.

**With the RESIZE & DESIGN editor customers can:**

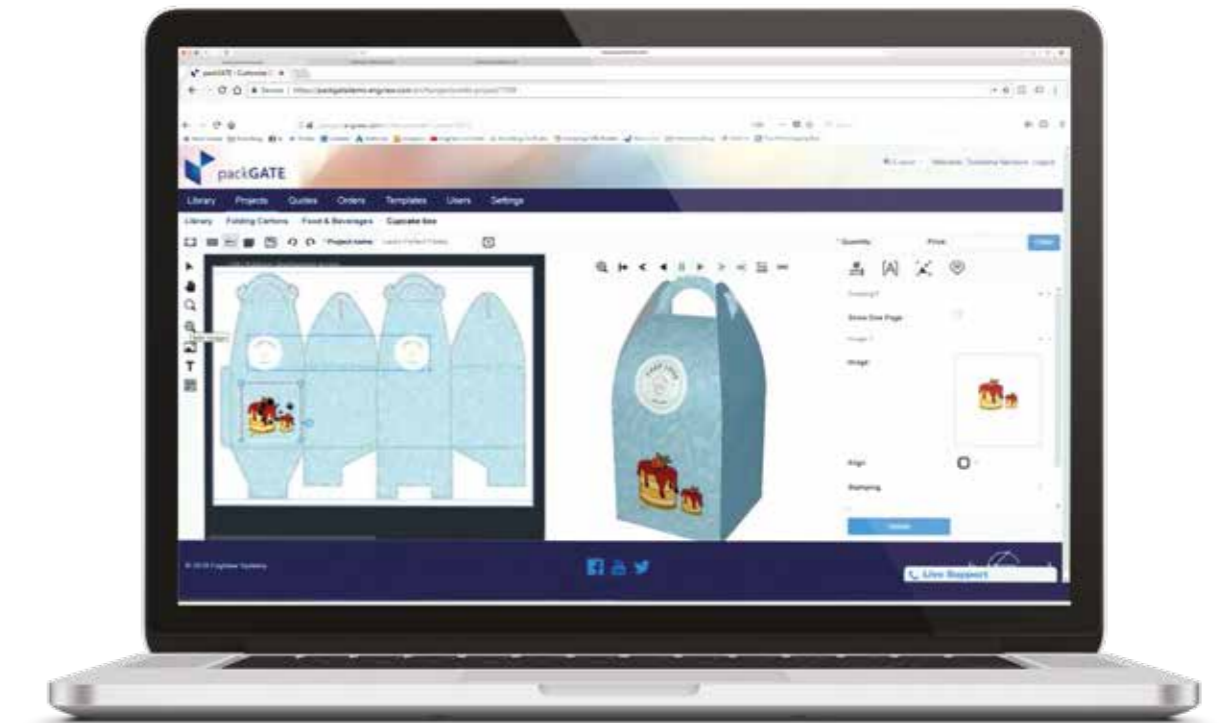

- Change sizes
- Place vector & raster images
- Add & format text
- See finishing effects in 3D

**07 Finishing effects**

packGATE supports realistic 3D visualisation of finishing effects like stamping, imprint and varnish. Customers can see in real time all modifications done to the design.

**08 Customer support**

Chat and talk with the customers to help them create the packaging designs they need.

**Increase packaging sales**

Working 24/7, the packGATE platform helps packaging companies reach new customers by opening up market niches for personalization, individual orders and localized brand campaigns.

**Optimize digital production**

Generating files ready to feed the production machines, packGATE achieves shorter time-to-market at affordable rates, increasing customer satisfaction.

**Streamline communication**

The packGATE platform is home to all the communication between customers and producers - chat, calls, project details and production files. This is a massive aid to customer support, ensuring it is fast, immediately responsive, and sustainably reliable.
